REPORT on “Automobile Explorations – Autotrix”

Dt. 18-12-2017

ANITS SAE Collegiate club has organised a two days workshop on “Automobile Explorations – Autotrix” in the department of Mechanical Engineering ANITS during 15th & 16th Dec, 2017. The workshop was inaugurated by Dr. NBR Prasad (Chairman of ANES), Dr. TV Hanumanth Rao (Principal of ANITS), Dr. B NagaRaju (Head of the Mechanical Department), Mr. M Prem Dheeraj (Faculty Co-ordinator of ANITS SAE Collegiate club) and Mr. Harish Dasari (Assistant Manager, M&M Zaheerabad)

The workshop consisted of both technical presentations and practical sessions. Mr. Harish Dasari, Assistant Manager from Mahindra & Mahindra (M&M Zaheerabad) has outlined the recent trends in automobile engineering and the opportunities awaiting young engineers in this canopy. Other technical presentations were taken up by various experts from JV Workshops, CarPixels, and other automobile firms. The two days workshop includes practical sessions on two wheeler tear down and assembly, where a group of 12 students were given a bike to explore by disassembling that. Students have spent more than 5 hours in learning about all major components of bike and their functioning.

Besides a discerning learning experience on two wheelers, students could also gain an outline of four wheeler engine and other components in the bonnet. The illustration of various assemblies and components observable from the bonnet of the car has helped the students acquire deeper understanding about the functioning of a car in its totality. Students also enquired about several troubleshooting aspects of car.

In the valediction of this workshop students had given their feedback and described the richness of knowledge that they could bag in this workshop. The further requested the Co-ordinator and Head of the Department to organise more such events, in response to which a summer internship with JV workshops was planned out.

More than 126 students had participated in this workshop and about 8 Student Volunteers have rendered their services for the smooth coordination of event. The sessions organised were found to be more interactive and practical with major focus on hands-on sessions.

Towards the end of workshop, students were also given an invitation to attend a 10 day internship program which is certified by Germany in relation to automobile service and

maintenance. Further students were also informed of the opportunities that Government of India wants to bring to the disposal of all budding engineers under SKILL INDIA initiative. In this connection, the resource persons assured all the interested students that they would also offer an internship year to completely make students employable in International Automobile Industry in collaboration with German Industrial training sector.
